

MASTER CABINETS

Master Cabinets

Over 30 Years Experience & More Than 19,000 Projects Under Our Belt!

We have an amazing 19,000+ projects under our belt at Master Cabinets, Wangara. It all started when our director, Walter Ferrari came up with an idea. He wanted to provide Perth residents and businesses alike with quality cabinet making at great prices. In those early days, Walter started his business working in his own backyard. Fast forward to the present day and Master Cabinets are members of the Cabinet Makers Association of WA (CMAWA) and our team has grown to comprise of more than 45 employees across 2 locations, since the addition of a Canning Vale factory in early 2023. We invest in great people, amazing apprentices and state-of-the-art machinery which allows us to do what other cabinet makers can't!

Walter Ferrari | Managing Director

Walter Ferrari left school after completing his 3rd year of high school studies and began his apprenticeship as a cabinet maker almost immediately with a company by the name of Costello's Furnishers. In 1977 he moved to International Cabinets where he learnt more about the manufacture and installation of high end kitchens and bathrooms. In 1988 he decided to try his luck at running his own business and so Master Cabinets began. In 2018 they celebrated 30 years in business. As of 2023, Master Cabinets has been in business for 35 years.

Alex Dudek | General Manager/Director

Alex Dudek has been employed by Master Cabinets since 2004 and is a qualified cabinet maker. Alex has progressed through the company from a Leading Hand, Production, Manager, Operations Manager and is now the General Manager and partnering Director. Since Alex's promotion, Master Cabinets has experienced exponential growth and this has culminated in Master Cabinets winning numerous business awards.

Kitchen Cabinets

Bring your family closer together with a practical & stunning kitchen

Having a poorly designed, impractical kitchen will bring you down in more ways than you may realise. It's not very pleasant or relaxing to come home every day to a tired, dated and generally just worn-out space. Your kitchen should be inspiring, bright and filled with storage space. Here at Master Cabinets we specialise in kitchen cabinetry and have the team and expertise to create the kitchen you've always dreamed of.

Stone Benchtops

Nothing completes a kitchen quite like a stunning stone benchtop

In 2015 we became local leaders when we added a solid surfaces division to Master Cabinets, enabling us to design and manufacture beautiful stone benchtops that our clients love. Because all our stonework is done in house, we can make certain there are no quality issues and we can ensure production times are down. In addition, we never import cheap stone. Instead, we prefer to only use Australian companies with minimum 7-year warranties. Our team provides attractive stone benchtops that co-ordinate seamlessly with our many cabinet options and look amazing!

"Thanks for your help. You guys are easy to work with nothing is too hard or a problem. Your work is great, on time and of a high quality."

- Ultimo Constructions

Custom Cabinets

We have honed our craft to provide reliable custom cabinet solutions you'll love

If you're looking for custom cabinets, Master Cabinets will create a bespoke design that's affordable and great quality. We understand that everyone has different needs when it comes to home storage. When you're considering buying new kitchen cabinets, you may want a deluxe look with tons of storage. Perhaps you'd like a lot of laundry cabinets to store your cleaning products. Whatever it is that you need, Master Cabinets will work with you to create your dream space.

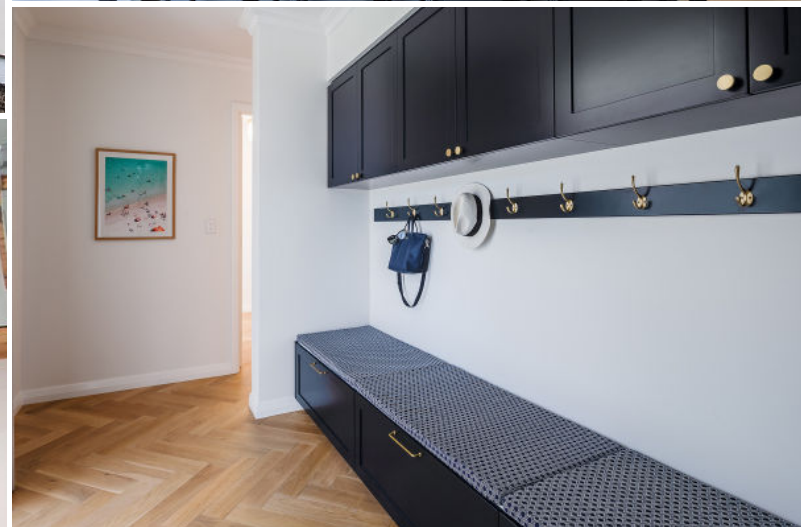

Wardrobes

Custom cupboards and wardrobes to suit all sorts of spaces

Your home should be your own cosy oasis away from the hassles of the outside world. Your bedroom, in particular, should have plenty of storage so you can just relax when you're spending time there. So many of our clients come to us asking for built in wardrobes. These are great for customers who have lots of clothes, shoes and bags. We can come to your home and discuss a custom wardrobe solution that will fit in perfectly with your vision. Just let us know your requirements and we will do the rest!

"I have been dealing with Master Cabinets for the last 6 years. I have found my experience with them to be thoroughly satisfying. Their customer service is exemplary. Quality of work and time frame is to be commended"

- Vince Marchesani

"The service and personal attention we receive from Master Cabinets is exceptional! They are truly a high-calibre team who are willing to assist us and our clients getting the job done right and within budgets. Always polite professional and courteous."

- Vanessa Smythe

The Master Cabinets Quality Guarantee

Workmanship always comes to the forefront at Master Cabinets. We employ only qualified cabinet makers with skilled apprentices to work on your designs, we do not use unskilled labour like many mass production companies. We use only quality hardware and material from well-known suppliers such as Hettich, Hafele, Blum, Laminex and Polytec to name a few. All our kitchens are assembled, and quality checked prior to dispatch from our factory in Perth's northern suburbs. It is for this reason that we are able to guarantee our products with confidence and pride. In the unlikely event that within the period of 5 years and subject to fair wear and tear, any part of the cabinetry should fail, we will repair or replace the item without question.

Major Clients

"We have been very happy with Master Cabinets service specifically in relation to their customer service. From design/concept stage all the way through to installation, Master cabinets works very hard at keeping their customers always at the forefront & a priority on any job they do (be it us as a company or direct with our client)."

- Nulook Homes

Your Journey

Master Cabinets Simplifies The Cabinetry Journey For You!

1. Site Measure & Quote

We start the process with a simple conversation to see if we can help. From there we arrange a site-visit and discuss your vision, your budget and requirements. It's a free site visit with no pressure and no obligation.

2. Selection Meeting

Once we decide to work together, we arrange a meeting at our showroom and go through the various material and colour selection options available to ensure your cabinetry reflects your style and meets your specific needs.

3. Build & Install

Our team will manufacture your cabinetry right here in WA, we will manage the whole process from start to finish, ensuring quality and timeframes are always met.

4. Enjoy Your Cabinetry

After everything has been finished you and your family will have beautiful new cabinetry in rooms you will now want to spend time in and enjoy. All our work is under warranty!

"Thank you very much for your service. My wife is extremely happy with our new cabinetry and wanted me to advise you of how nice, friendly & professional your installer was."

- Trent Jackson, General Manager, Ross North Homes

The Master Cabinets Difference

No Production Line

We employ only qualified cabinet makers and apprentices to ensure that clients get the highest quality workmanship possible for the manufacture of your project.

Highest Quality of Work

We have an excellent reputation in industry for our workmanship and service. We guarantee the quality of our work and only use the highest grade materials.

We Build Long Lasting Relationships

Our repeat, ongoing business and friendships are testament to our high quality service and products. We treat you and your project with the attention and care you deserve.

Longevity in the Industry

We have been trading since 1988 and have over 19,000 projects under our belt at Master Cabinets. Our experienced team is our greatest asset.
